# Pol-E-Flake<sup>®</sup>

Lost Circulation Additive

WelDril Products is renowned in the oil field for its commitment to providing outstanding products and services to its customers. In keeping with that commitment, WelDril has developed **Pol-E-Flake<sup>®</sup>** a lost circulation product made from polyester film that is a superior substitute for more expensive cellophane flakes..

**Pol-E-Flake<sup>®</sup>** is inert and useful in any common drilling fluid or cement system as a preventive filler while drilling potential loss zones.

**Recommended Uses:**

- May be used in any common drilling fluid or cement system
- May be used in the mud system as a preventive filler while drilling potential

**Performance Benefits:**

- Produces maximum mat sealing at the face of the wellbore
- Made from Polyethylene terephthalate (PET) film
- About half the density of common cellophane
- Easily dry blended
- Will not cause pump cavitation
- Chemically inert

**Cost Benefits:**

- Competitive pricing

**Customer Service Benefits:**

- Exemplary service
- Most orders ready for shipment in 24-48 hours

**Available Product Information:**

- Product description & recommended use
- Safety Data Sheet

**Physical Properties:**

- Appearance: Flat flakes
- Color: Clear, white, translucent
- Size: 3/8" typical (other sizes available upon request)
- Density: 10 lb./Ft.<sup>3</sup>
- Specific Gravity: 1.4
- Toxicity: None (non-toxic)
- Melting Point: 437—500°F
- Solubility in water: Insoluble

Because the conditions of use of this product are beyond the seller's control, the product is sold without warranty either express or implied and upon condition that purchaser test the product to determine the suitability for purchaser's application. Purchaser assumes all risk of use, dosage, and handling of this product. This product will be replaced if defective in manufacture or packaging or if damaged. Except for such replacement, seller is not liable for any damages caused by this product or its use. The statements and recommendations made herein are believed to be accurate. No guarantee of their accuracy is made, however.
